

A young woman with dark skin and braided hair is looking directly at the camera. She is shirtless, and a small, colorful, patterned object is visible at the bottom center of the frame. Above her, a large, crumpled green fabric bundle hangs from the top of the frame, partially obscuring the background. The background is a soft, out-of-focus green and white gradient.

Project Malawi is a programme of Fondazione Cariplo and Intesa Sanpaolo bank, to fight the spread of HIV in Malawi: the core of the project is the prevention of HIV transmission from mother to child during and after birth. In addition to that, Project Malawi also works to limit the impact of the disease on the population and to support the country's development.
